[MY DESIGN WORK ►](#)

Technical skills

Web • Javascript (ES5, ES6), CCS3, HTML5, GitHub, Jekyll, Liquid, Wordpress

Design • InDesign, Illustrator, Photoshop, After Effects, Inkscape, SketchUp, Figma

Work

Aug 2021 - May 2022

Costello Medical • Graphic designer

A wide-ranging graphic design and digital design role at an agency with clients in the medical sector, ranging from large corporate entities to small third sector and charity organisations. My responsibilities included:

- Supporting the development of websites for charities using the WordPress and Wix platforms through user testing and consulting on accessibility
 - Building, testing and deploying HTML emails via the Pure360 platform
 - Designing printed policy reports and factsheets for both medical specialist and general audiences
 - Designing technical reference materials for clinicians in interactive pdf and printed poster format
 - Developing new best practice accessibility guidelines for digital design and exhibition design
-

Jun 2021 - Aug 2022

The Charterhouse • Visitor assistant

A part-time role based at a historic venue in Islington. I managed the venue's online retail and ticketing system using the DigiTickets platform, planned the delivery of guided tours and managed day-to-day operations.

April - December 2020

St John Ambulance • Event planning and delivery coordinator

A role based at St John Ambulance's regional operations command centre. I coordinated the daily deployment of volunteer healthcare workers in response to Covid-19, managing the booking of healthcare volunteers onto hospital shifts and ambulance shifts and liaising with commercial clients to organise first aid support for behind closed doors sport events.

2017 - 2020

Museum of the Order of St John • Lead designer and administrator

A design role based at a historic venue in central London. My responsibilities included:

- Designing exhibitions, gallery displays and wayfinding signage based on best practice accessibility guidelines
 - Delivering marketing creative for commercial events and generating retail design concepts based on the museum collections
 - Managing the museum's WordPress website, including updating content via the CMS and liaising with a digital agency to plan and implement design and functionality updates
 - Supporting the development of public programme content including talks, tours and activity sessions
-

2015 - 2017

Museum of London • Host and guide

I developed and delivered public engagement content including talks and tours and creative workshops across two sites at one of London's busiest museums.
